

Dates of revision: 2012 June (Revision of description for insert contents)

You should read this written explanation before use. Please keep it so that you can read it when you need to.

Third-Class OTC drugs

for wounds, such as minor cuts, abrasions, hangnails, and chapped skin

Coloskin®

Liquid Plaster

Coloskin® is for wounds, such as minor cuts, abrasions, hangnails, and chapped skin.

Applying Coloskin® may cause an instant smart, but it would coat a clear and thin film over wounds, and keep wounds from dirt and germs.

And, because the thin film would not be easily peeled off by work to use water such as cooking or washing, Coloskin® is a vulnerary which does not require an ordinary bandage.

Precautions

When not to use the product (If you do not follow these instructions, the current symptoms may worsen or adverse reactions are more likely to occur.)

1. The medicine should not be used on the following parts.
 - ① Erosion, purulence, bleeding wounds, and large areas of open wounds
 - ② Periorbital area, face, head and mucosa, etc.
 - ③ Wounded skin by shaving or depilation
2. Do not intentionally inhale as the medicine contains organic solvents.

Consultation

1. The following persons should contact a physician, pharmacist, or registered salesperson for a consultation before use.

Patients who have experienced allergic symptoms associated with drugs, etc.
2. If the following symptoms are observed after using this drug, these may be adverse reactions, so immediately discontinue the use, and show this document to your physician, pharmacist, or registered sales person for a consultation.

Areas Concerned	Symptoms
Skin	Rash/Redness, Itching, Contact dermatitis, Hot sensation, etc.

Indication

Minor cuts, Abrasions, Hangnails, and Chapped skin

Dosage and administration

Clean the affected lesion. Apply an appropriate amount of medicine to the wound and dry thoroughly.

Precautions of dosage and administration

- ① Attention should be paid so that the medicine will not come into contact with eyes. In case the medicine comes into contact with eyes, immediately rinse them with water or lukewarm water, and immediately seek an ophthalmologist for medical treatment.

- ② Applied area should be kept away from fire or flame.
- ③ When allowing children to use the medicine, a guardian must be present to watch and tell such them how to use it.
- ④ The medicine is only for external use and should not be internal use.

Usage

- Open a hole in tube with prong of cap.
- Soak the cap in hot water when the cap of the tube does not come off. (Do not warm by direct flame.)
- Wipe blood, water, cream and emulsified liquid on the lesions off well, because Coloskin[®] may lose its adhesiveness if the lesions are wet.
- The coating film will peel off by itself with repeating bath and housework. When in haste of tearing off, wipe off the portion where the film is softened by steam with a warm soaking cloth. Or, wipe off slowly by enamel remover.
